"We've replaced Avalara as our tax solution for retail and wholesale taxing of telecom. Our experience has been stellar in terms of their taxing engine but over-the-top stellar in terms of support, training, onboarding, etc."

"Our transition from Avalara to CereTax was great. We were working under a very tight timeline, and it was met on time. The entire project team was helpful and responsive. I felt like they really cared about our Company and wanted the transition to be seamless. After we went Live, any issues were handled quickly and efficiently. I couldn't be more satisfied with CereTax."
