Brand story

Who are we? Times are continuously changing, but you can always count on Continia. Count on us to dig in, understand your challenges, and engineer solutions - available to the international market through our local partners.

Our intelligent solutions add significant value to people and businesses by optimizing two of the most valuable commodities: time and data.

We get time to work for you by developing practical, reliable, easy-to-use, and price-competitive software solutions. Continia solutions automate and digitalize workflows in the backbone of most companies: the financial department.

With more than 30 years of experience, we know that you can't buy back time. Don't waste it - spend it wisely.

To us, time is everything. Our clients count on our solutions and support for their businesses to run smoothly and seamlessly every day - that's our promise to you. We also ensure we can count on each other as colleagues and fellow Continians.

All Continians believe that time is the most valuable asset in business and life. Ask us what we do and whether you should work with us. We'll say:

It's about time

BUILT INSIDE: One platform for all your finance processes

Work directly from your Business Central - install & use in less than 15 minutes!

Spend your time on what matters most

Say goodbye to third-party apps. At Continia, we specialize in Microsoft Dynamics 365 Business Central, dedicating our efforts to developing solutions specifically for this platform. This focus allows us to deliver unmatched efficiency and seamless functionality.

Continia's solutions are built directly into your Business Central, extending its standard functionality and enhancing your existing workflow. This ensures you can concentrate on what truly matters for your business.

100%

BUILT

INSIDE

Save on cost and setup

No integration required

Scalable as you grow

All your tools in one place!

You don't need to switch between systems to complete tasks. Take your business to the next level and handle all your finance processes from one platform. Intuitive and easy-to-use, Continia solutions are fully embedded into your existing Business Central environment.

Quick setup

Get your new software up and running in less than 15 minutes. Simply install, set up, and go!

User-friendly

Minimize your learning curve by working with the same Business Central interface you're used to.

Easy maintenance

Ensure your solution is always up to date with automatic updates according to the latest version.

Level up your Accounts Payable with Continia Document Capture

Let the software do the repetitive work for you

Streamline and automate your invoice processing from start to finish. Document Capture is an end-to-end solution that takes care of it for you, allowing you to sit back and relax while you do your work.

Key features that add value to your workday

Advanced Capture

Efficiently register and process your invoices with AI-enhanced OCR.

Document Approval

Handle invoices from anywhere. Approve, reject, forward, or put them on hold.

Order Matching

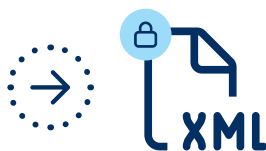

Avoid errors and ensure consistency with automatic three-way matching.

Purchase Contracts

Get a clear overview of your contracts and save time managing them.

Send your electronic documents securely

Effortlessly exchange your electronic documents in full compliance with European and local laws. Enhance your business operations by securely connecting and exchanging XML documents globally via the Peppol eDelivery Network.

Secure Archive

Securely store, index, and preserve your data to ensure full compliance.

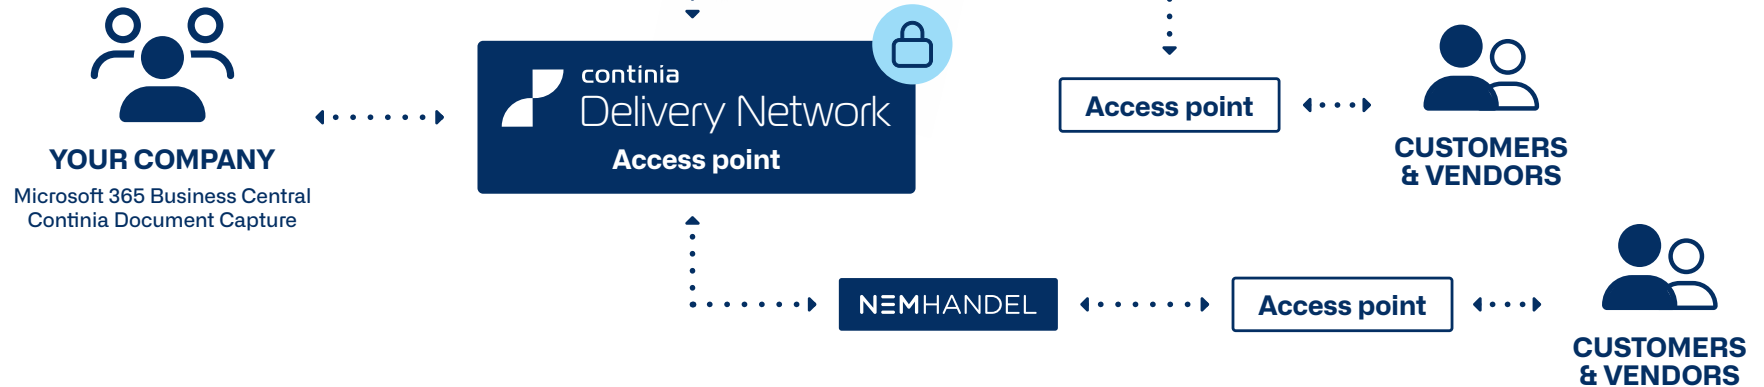

Speed up & stay compliant with electronic invoicing

Send and receive your e-documents in seconds
- directly from your Business Central

Secure document exchange with Continia Delivery Network

Continia Delivery Network seamlessly integrates with the Peppol eDelivery Network, enabling secure document exchange using Document Capture.

Continia Delivery Network allows you to send and receive e-invoices and other e-documents in your required format, helping you stay compliant and secure all your sensitive information.

Key benefits of electronic invoicing

Receive and send all your e-invoices through Business Central.

Be a preferred supplier for companies in the public sector.

Secure all sensitive data to ensure high document accuracy and integrity.

Safely connect to the Peppol Network through Continia Delivery Network.

Handle all e-documents in the same way you handle your PDFs.

Protect your company data

Increase your document security and validity by sending and receiving all your important documents, such as invoices and credit notes, as e-documents. Using electronic document formats such as Peppol BIS3 (XML), guarantees that all your sensitive information is encrypted and secure - helping you follow all regulations, such as GDPR.

Handle your expenses efficiently with Continia Expense Management

Track employee spending in real-time

Gain control of your incoming expenses with Expense Management. Import expenses directly into Business Central for immediate visibility and quicker reimbursement time. Expense Management provides you with full audit trails and integrates with major credit card providers for automatic reconciliation, ensuring you have a streamlined and secure expense management process.

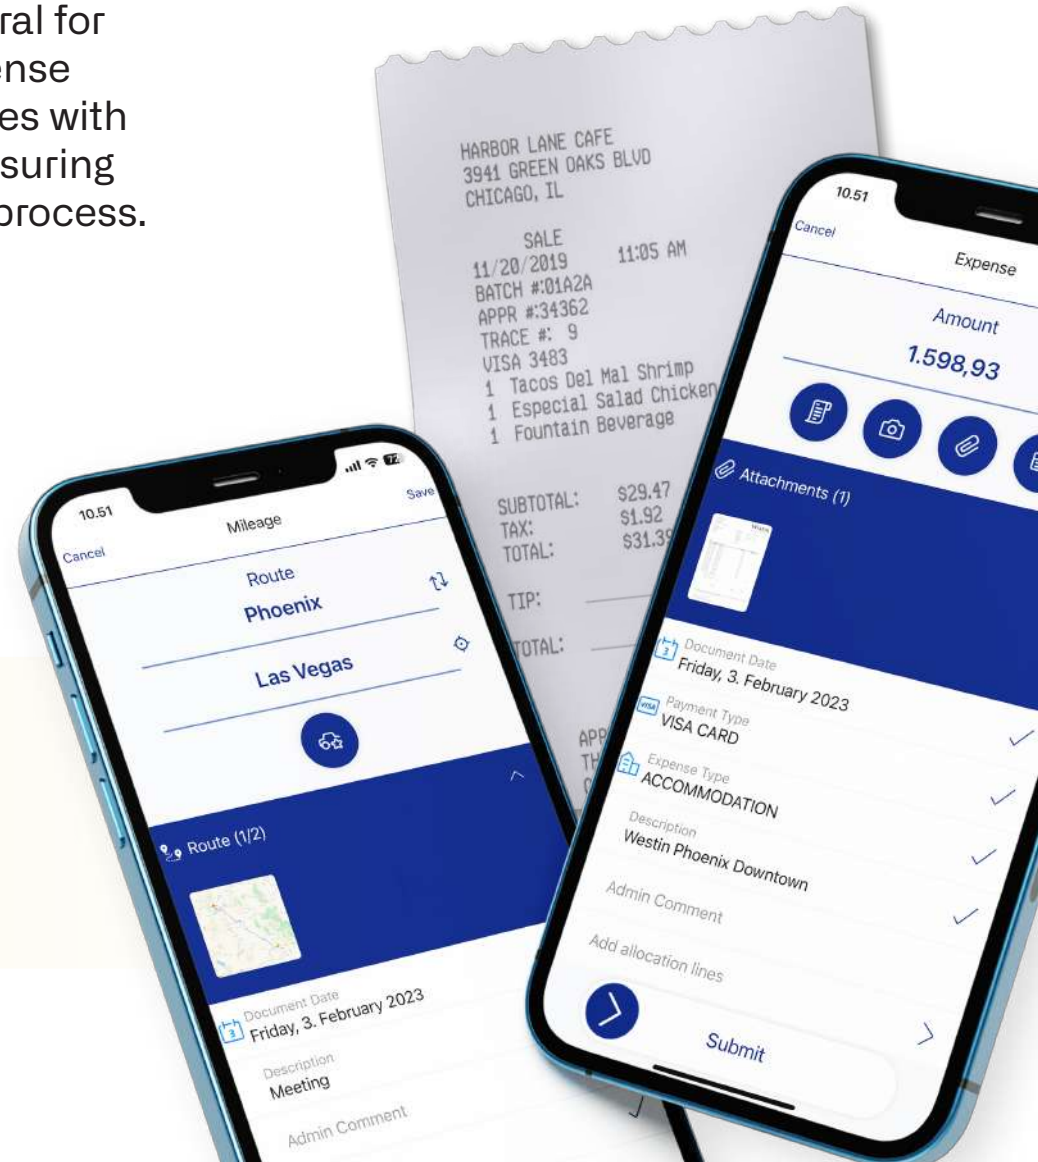

4x faster approval & reimbursement times

80% less time used on reporting expenses

100% more fun than ever before

There are thousands of expense reports processed at Rock Compliance. The ease of being able to approve the document attached within the app has helped us streamline the process tremendously and keep control over the process.

Dominic Putka, Group IT Manager, Rock Compliance

Ready. Set. Snap!

Snap and upload pictures of your receipts on the go using the Expense App. Eliminate manual data entry with AI receipt scanning and autofill that speeds up submissions with automatic suggestions.

Receipt missing? The system automatically sends a reminder for the employee to submit the missing documentation.

Manage subscriptions

Save time and ensure you don't pay for unused subscriptions with one central overview of all your recurring expenses.

Control expenses

Quickly log mileage and easily calculate daily allowances for travel accommodation and meals.

Approval flows

Approve expenses from anywhere. Approve, reject, forward, or put the expense request on hold.

Automate your document distribution with Continia Document Output

Get an overview of all your outgoing documents

Streamline your document distribution with Continia Document Output so you can easily manage and send various documents, such as invoices, purchase orders, and account statements. You can also save time with a clear overview of all your sent and drafted documents.

Personalize your outgoing emails

Add a personal touch to your emails with time-limited signatures for seasonal greetings or promotions.

Flexible PDF customization

Customize your PDFs effortlessly by adding background images that align with your branding.

Create targeted email templates

Easily set up and apply email template variations based on document or recipient attributes, such as dimension.

Protect your PDFs

Add a layer of protection against document tampering, such as changed payment and account information in your PDF documents. You can sign and watermark – or password protect – your files to ensure security and validity.

- ✓ **Easily batch print or send documents** in just a few clicks by setting up email jobs to auto-detect and queue your files.
- ✓ **Enhance standard or custom modules** with Document Output features using the AL Extension Builder.
- ✓ **Send scheduled emails efficiently** in the background, keeping your workflow uninterrupted.

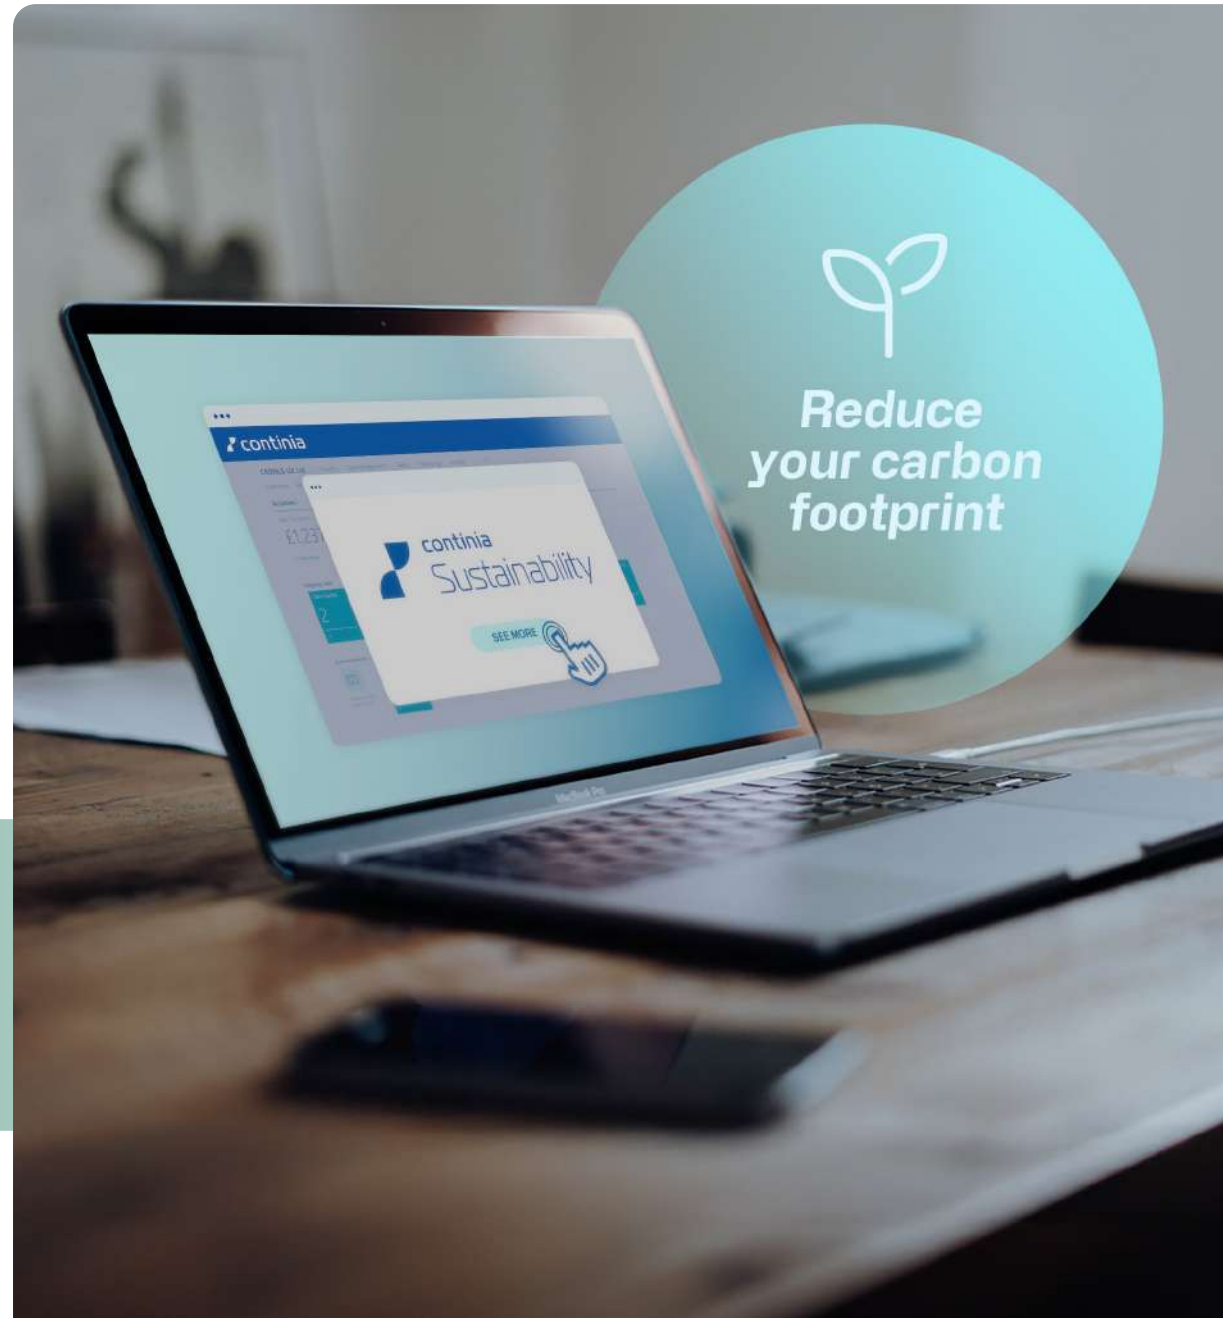

Start your journey to net zero with Continia Sustainability

Track and report your carbon emissions directly from Business Central

Seamless carbon accounting to empower your climate strategy

Measuring your company's climate impact doesn't have to be difficult, expensive, or time-consuming. Make carbon accounting a seamless part of your workflow by using your existing financial data to accurately calculate and report emissions. Continia Sustainability helps you keep track of your activities so you can take meaningful action to reduce your carbon footprint.

**Consistent.
Convenient.
Compliant.**

Accurate carbon calculation across Scopes 1, 2 & 3

Get a clear overview of your company's environmental footprint across operations and the whole value chain. Set the solution up once and enjoy automatic conversion and allocation across all three of the GHG Protocol scopes.

- ✓ **Integrated emission factor sets** for seamless and accurate carbon calculations.
- ✓ **Standard-aligned reporting** following the GHG Protocol for consistency and comparability.
- ✓ **Automatic conversion** of financial and quantitative data into CO2 equivalents.
- ✓ **Familiar interface** using the same role center, journals, and navigation panes you know from Business Central.
- ✓ **Transparent audit trail** with calculation breakdowns, recalculation options, and easy data source access.

Scope 1

Direct emissions from operations and vehicles

Scope 2

Indirect emissions from purchased energy

Scope 3

All other indirect up- and downstream emissions

Speed up & secure your payment processes with Continia Banking

Strengthen control over your payment workflows

Transform the way you manage your payments with Continia Banking. This powerful solution streamlines your processes, enhances security, and reduces errors, enabling your finance team to make better decisions with less effort while keeping full control over every transaction.

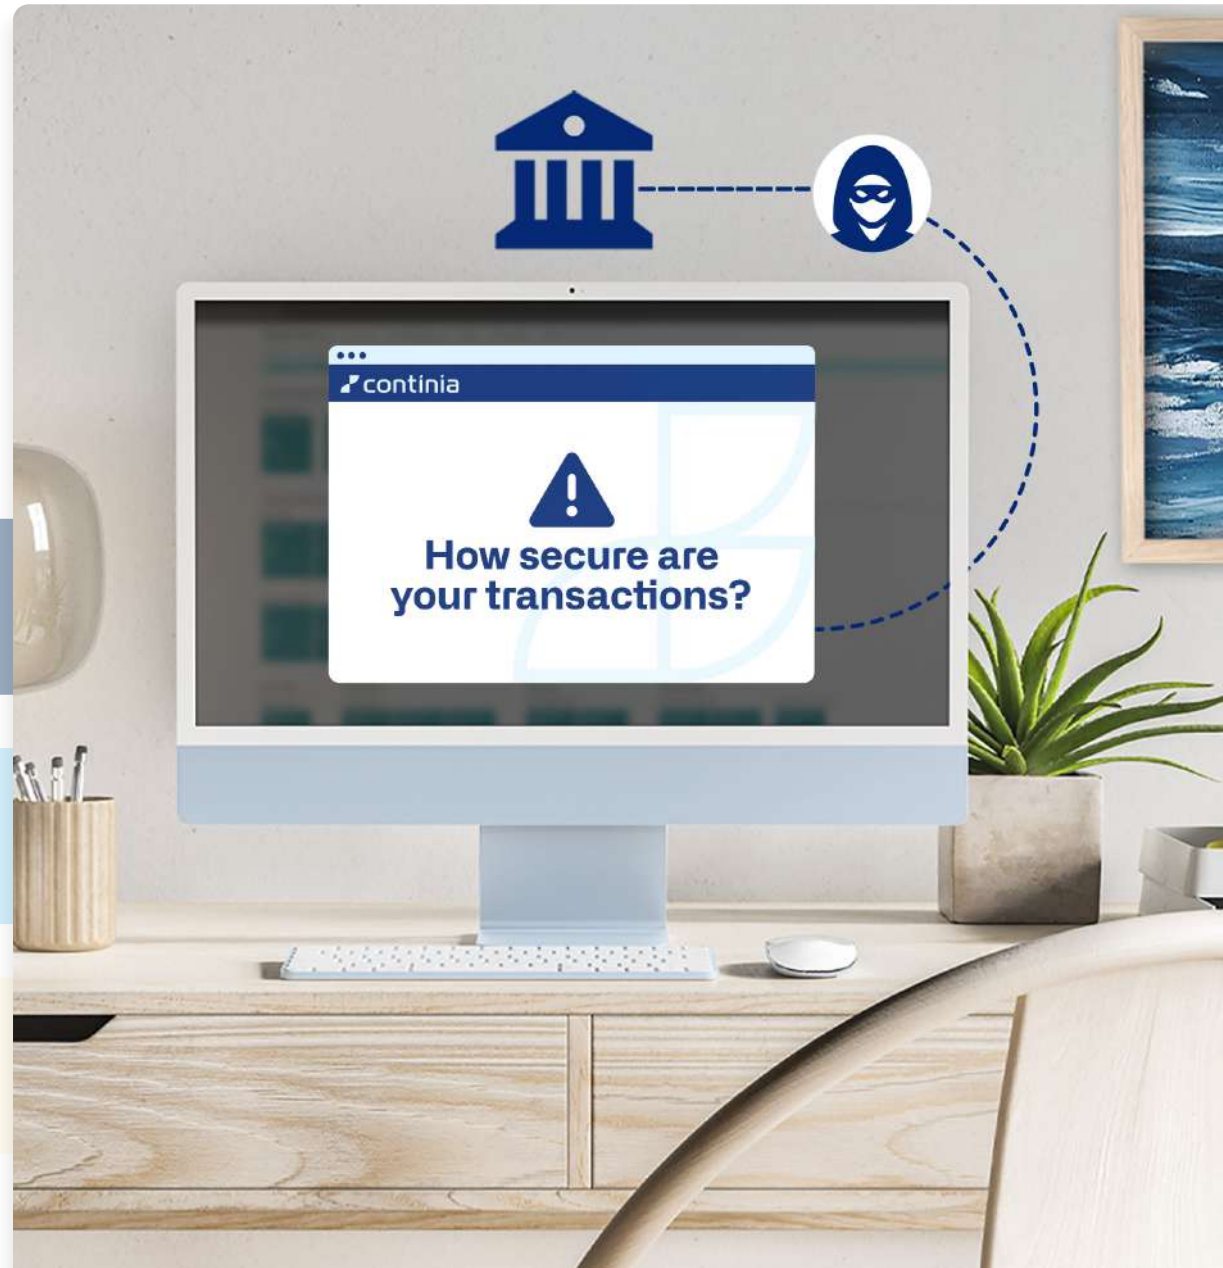

Quicker payments

Enhanced accuracy

Secure transactions

Direct communication with your bank

Streamline your payment processes with seamless bank integration directly within Business Central. Easily send payments and direct debit files, receive status updates, make automatic exchange rate amount adjustments, and automatically import statements and payment files—all in one smooth, efficient workflow.

Built-in fraud prevention

Top-tier payment security safeguards your transactions with built-in fraud prevention and secure payment approval workflows.

Validation & error-handling

Save time and ensure your payment-related information is accurate from the start with integrated data validation checks at every stage.

Precise reconciliations

Optimize your match rate by up to 95%. Quickly and accurately reconcile your transactions with advanced search rules and built-in logic.

Flexible payment processing

Tailor your payment flow to fit your business needs. Choose between a quick, streamlined process or a more detailed and controlled approach.

Optimize your advanced financial processes with Continia Finance

Looking for a smarter way to manage your finances?

If you're an experienced Business Central user, you've probably discovered certain tasks that require manual input and adjustment. Continia Finance extends Business Central's functionality, filling essential process gaps and empowering you to work more efficiently.

The essentials are on us!

Download Continia Finance and enjoy the Essential module for free – forever! This module includes some of the most sought-after features related to G/L Accounts, VAT, and accessibility.

When you need more specialized features, Continia Finance offers seven independent modules, each designed to handle key financial tasks.

7 modules to maximize efficiency

Associations

Group multiple customers or vendors into one entity for easier reconciliation and streamlined account management.

Extended Fixed Assets

Create assets with templates, manage multiple units and quantities together, and gain a comprehensive overview of your assets' status and lifecycles.

Extended Financial Reports

Enhance financial reporting by grouping General Ledger Accounts and enjoy new reports and lists.

Installment Payments

Define and apply templates to split payments into installments across sales and purchase documents, offering improved payment flexibility.

Multi-Level Payment Discounts

Create tiered payment discounts to incentivize quicker payments with multiple available payment dates.

Treasury

Centralize all liquidity-related data for comprehensive financial insights and streamlined management.

G/L Open Entries

Extend open/closed principles to general ledger accounts, providing better tracking of ongoing transactions.

Why Continia?

Continia develops and delivers add-on solutions for Microsoft Dynamics 365 Business Central. Today, over 20,000 customers worldwide actively use one or more of Continia's solutions to automate their finance processes.

With over 30 years of experience in Microsoft Dynamics, you're guaranteed quality solutions BUILT INSIDE your Business Central. BUILT INSIDE means that you can keep working with the same user interface you're used to. Setup, implementation, and maintenance are quick and easy.
