For Visualizing Your Data— there is no better way than Microsoft Power BI.

Power BI's stunning interface is inexpensive, easy to install, and allows users to plan and execute faster.

Jet Analytics makes Microsoft Power BI deployment even easier by connecting it to user-friendly data preparation, automation, and modeling tools that are specifically designed for reporting, analytics, and business intelligence with Microsoft Dynamics. This gives you the following advantages:

Accuracy

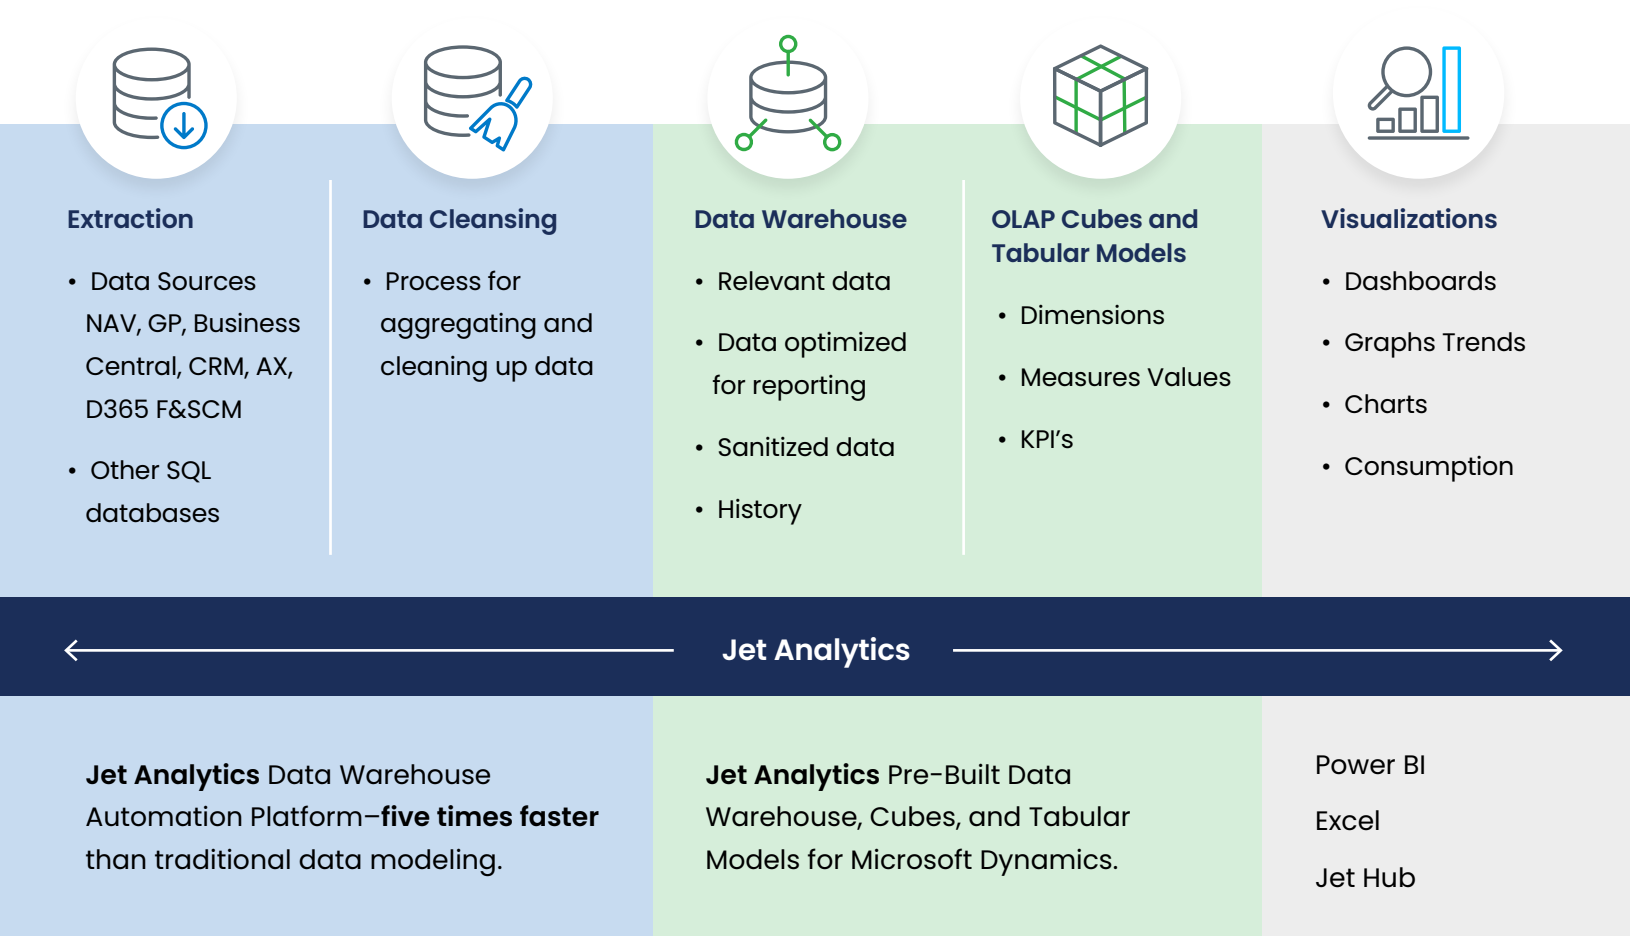

All dashboards use the same governed data source of agreed-upon definitions and measurements for **consistent decision making**.

Speed

There's no need to create a new data model for each analysis. Simply connect Power BI to Jet Analytics' cubes or tabular models and **build your dashboard right away**.

Control

Ensure that the right users have access to the right data **in the way that they need to see them**.

Reduce the time it takes to access accurate and controlled data by 80% when you enrich Power BI with Jet Analytics.

Jet Analytics is a data preparation, automation, and modeling solution that extends the Microsoft framework. As a ready-to-use solution, companies can instantly see their business information and quickly add their own KPI's to emphasize their strategic advantage.

The result is rapid time-to-value and a low total cost of ownership.

Integrating **Jet Analytics** with **Power BI** will empower organizations to:

- **Ensure consistency** by seamlessly connecting and consolidating multiple data sources.
- **Enable self-service** with simplified report building with shared semantic layers.
- **Drive performance** by boosting refresh times, eliminating bottlenecks, and optimizing systems usage.
- **Reduce cost of ownership** by getting value five times faster than traditional data warehousing methods.

Five Unknown Facts about Power BI

Discover FIVE things you probably didn't know about Power BI. Learn how these facts can introduce risks into your business intelligence project and how you can overcome these challenges.
