

Fast, Flexible Reporting and Analytics, in Excel and on the Web

**Built for Microsoft
Dynamics NAV, GP,
and 365 Business Central**

Jet Reports

Get all the financial and operational reports you need, in the format that works for you.

- **Eliminate errors:** access and pull all your data directly in Excel instead of copying, pasting, and manually exporting.
- **Cut reporting time and cost:** no more hard-coding or programming reports required.
- **Have the answers you need:** drill-down on the numbers directly from Excel, and access them from anywhere.
- **Get started immediately:** built specifically for Dynamics and installs in minutes with pre-built report templates to use on day one.

“We complete reporting in about a quarter of the time with Jet Reports.”

Mike Ball
JR Simplot

Jet Analytics

Bring all your data together in one place to enable everyone in the organization to quickly and easily perform sophisticated business analysis in Excel or Power BI.

- **Designed for users:** remove any need to understand the underlying data structure when building high impact dashboards inside Excel or Power BI.
- **Accurate data you can rely on:** governed data for one version of the truth.
- **Rapid time-to-value:** turnkey installation in hours with pre-built cubes, data warehouse, and dashboards.
- **Low cost of ownership:** user-friendly data preparation automation and data modeling tools to support all your reporting and analytics needs, and that is 5x faster than manual coding.

“I have saved 75 percent of my time that was previously spent on reporting, analysis, and reconciliations.”

George Mbugua
Davis & Shirliff

Jet Hub

Provide access to the right data, anywhere. Online collaboration, control, and publishing for all your reports, dashboards, and budgets.

- **Productivity from anywhere:** a fast, easy web portal that is ready to use from any mobile device with a web browser.
- **Never second guess the data again:** version control management and automatic updates so you feel confident it's the right answers, and the right workbook, every time.
- **Controlled spreadsheets:** managed, secure report access for all business users.
- **Find what you need now:** Complete report search and sharing to locate what you need, when and where you need it.

“I was able to put a report together in 5 minutes and have it distributed to each of our General Managers using the Jet Hub. It used to take days – now it only takes 10 minutes.”

Raj Patel

Rossmore Management Group

Bizview

A robust, web-based planning solution that increases cadences, facilitates collaboration, and simplifies processes to drive smarter decisions from more accurate data.

- **Shrink cycle times** to enable continuous planning and rolling forecasts using powerful workflows, automated emails, and multi-level approvals.
- **Accurate data you can rely on:** governed data for one version of the truth.
- **Extend planning beyond finance** with easy configuration of planning forms coupled with driver-based models.
- **Access data anywhere, anytime, on any device,** using a familiar spreadsheet-like interface, but without having to manage multiple spreadsheets and versions.
- **Ensure a fast time to value** using out-of-the-box content and connectors.

“With Bizview, the time spent on budget preparation has been significantly reduced. In addition to that, the quality of input has greatly improved.”

Pål Sonesen, Controller
