

A Full Automation Tool to Streamline Your AR in Microsoft Business Central

The iSolutions Payments application integrates seamlessly within Microsoft Dynamics 365 Business Central, increasing efficiency and simplifying the overall payment acceptance process so you can focus on running your business.

READY TO GET STARTED?

We have a package to suit the needs and budget of every business.

ISOLUTIONS COLLECTIONS AND PAYMENTS

Credit Card and ACH Processing

- **Credit Card and ACH Processing**
Authorize, capture, and reverse transactions directly within Business Central Sales Orders, Invoices and Service Documents.
- **Credit Card Reconciliation**
Ensure that deposit transactions in a credit card statement match those on the company's general ledger.
- **Point of Sale**
Counter Sales with end of day reconciliation powered by Clover.
- **API Integration**
Connect with our APIs to integrate payments from any application into Business Central.
- **Qualify for Lowest Rates**
Reduce credit card processing rates by sending additional transaction details from Microsoft Dynamics 365 Business Central documents.

Collections Management

- **Collection Reminders**
Send customers automated reminders for past due invoices with click to pay.
- **Automated Email**
Automatically email invoices upon posting.
- **Collections Manager**
Summarized AR Aging by Customer with notes. Ability to zoom into AR Aging bands.

Customer Portal

- **Customer Payments**
Give customers the ability to view and pay their invoices on their own time using your custom branded self-service portal.
- **History**
Empower your customers with the ability to view their account and payment history online.
